

## Adding students to Imagine Math Class

Login to your account

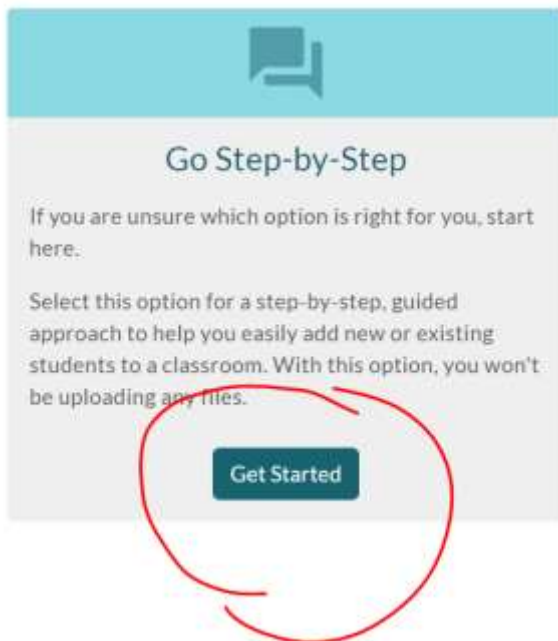

Click on “current students”

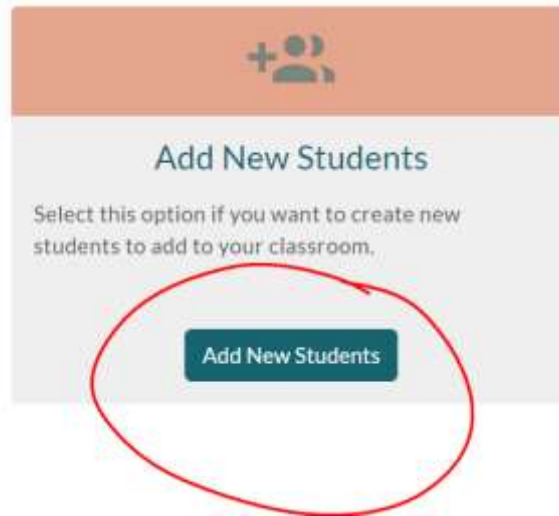

Click on “add students”

Click on “get started” under “Go Step-by-Step”

Click on “add new students”

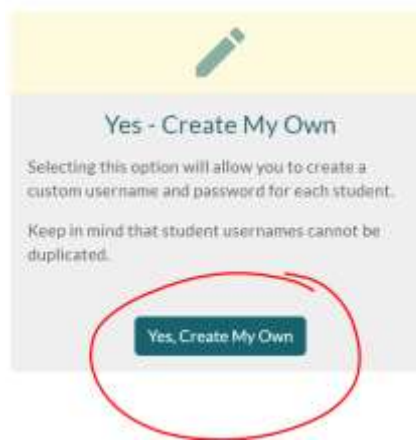

Complete last name, first name, and Grade

Under environment choose “Imagine math”

A screenshot of a form for adding a new student. The form has five main sections: "Last Name", "First Name", "Student Information Number (SIN)", "Grade", and "Environment". Each section has a corresponding input field. The "Last Name" field contains the text "Last Name", the "First Name" field contains "First Name", and the "Grade" dropdown menu is set to "PreKindergarten". The "Environment" dropdown menu is set to "Blueprint". A red circle highlights each of the three input fields: "Last Name", "First Name", and "PreKindergarten".

click

**Finished Adding Students >>**

Click “yes, create my own”

Enter a username and password and then “finished with credentials”.

Last Name	First Name

Finished with Credentials >>

### No - Not Right Now

It's okay if you don't have your student demographic information at this time. You can always choose to update this information later.

If you are unsure which to choose, select this option.

No, Not Now

You must “confirm changes” on the next page

If it says the student is already in the system with that user name, email Tricia Zeman [tzeman@hpsk12.net](mailto:tzeman@hpsk12.net)
